Hurricane Mitigation Retrofits Application for Existing Site-built Single Family Residential Structures

Job Address: _____, Plantation, FL.

Re-nailing of roof sheathing is required. In addition, Florida Statute 553.844 requires that hurricane mitigation retrofits be performed when a roof of an existing site-built single family residence is replaced. Required retrofits include the installation of roof to wall connections when the house has an insured value or ad-valorem tax value of \$300,000 or more. The following must be completed to confirm compliance with these requirements.

A. Was the dwelling permitted on or after 2002? No Yes - Year _____

If you answered Yes, do not complete sections B and C, provide Supplemental Fasteners Inspection Affidavit ONLY.

If you answered No and the insured value or ad-valorem tax value is \$300,000 or more, complete sections B and C.

B. The insured value of the house or ad-valorem tax value is \$_____ (provide proof of insured value or ad-valorem tax value).

C. If the value is \$300,000 or more, the following must be provided prior to obtaining a re-roofing permit:

The following Engineer, Architect, Contractor (General, Building, Residential) or Private Structural Inspector has been retained to provide the required roof to wall certification:

Name: _____

License Type: _____ License Number: _____

Business Name: _____ Phone Number: _____

Business Address: _____

We understand that a separate permit is required if the existing connections are not adequate.

The following Contractor (General, Building, Residential) has been retained for this work:

Name: _____

License Type: _____ License Number: _____

Business Name: _____ Phone Number: _____

Business Address: _____
