

FIXTURING PERMIT REQUIREMENTS

FIXTURING: THE INSTALLATION OF RACKS, SHELVES UNMOVABLE AND/OR ENERGIZED CUBICLE/FURNITURE OR GONDOLAS.

1. Fixturing permit – submit permit application, by the General Contractor on the job and plans (if the fixtures are not on approved plan) with work order for the fixtures and estimated cost. The fee will be 1.5% of estimated cost, plus tax, certification and maintenance fees, and administrative surcharge. Any energized fixtures/furniture will require an Electrical Permit.
2. Job must be approximately 90% complete. Clean and safe, all construction debris must be removed from the site. All life safety items must be complete as possible.
3. Must provide exits and designate such exits
4. Fire Sprinklers and Fire Alarms must be complete as possible.
5. After the fixtures/furniture are installed, you must call for an inspection.
6. Site must be clean and ready to receive the fixtures; work must be substantially complete.
7. If you use security guards at doorways, access by inspectors should not be restricted.
