

FIXTURING PERMIT REQUIREMENTS

FIXTURING: THE INSTALLATION OF RACKS, SHELVES UNMOVABLE AND/OR ENERGIZED CUBICLE/FURNITURE OR GONDOLAS.

1. Fixturing permit – submit permit application, by the General Contractor on the job and plans (if the fixtures are not on approved plan) with work order for the fixtures and estimated cost. Any energized fixtures/furniture will require an Electrical Permit by sub-contractor on job.
2. Job must be approximately 90% complete. Clean and safe, all construction debris must be removed from the site. All life safety items must be complete as possible.
3. Must provide exits and designate such exits
4. Fire Sprinklers and Fire Alarms must be as complete as possible.
5. Site must be clean and ready to receive the fixtures; work must be substantially complete.
6. If you use security guards at doorways, access by inspectors should not be restricted.
7. After the fixtures are installed, you must schedule the applicable fixturing inspection(s).

*** Applicable permit fees will apply.**
