A. General Business Requirements.

1. Establish and continue communication with local and State authorities to determine current mitigation measures in your community.

2. Whenever feasible, allow employees to telework or establish a rotation or staggered schedule to reduce the number of employees working on site.

3. Where telework is not possible, consider how your current workspace can be reconfigured by installing physical barriers or implementing other measures that allow for social distancing.

4. To the extent possible, implement flexible sick leave policies and reiterate existing sick time and paid time off policies to discourage employees from coming to work if they feel ill.

5. Develop a plan for monitoring your employees' health, with a particular focus on COVID-19 symptoms, with the goal of preventing ill employees from working.

7. Develop or update your employee contact system (e.g. phone tree, social media, texting) so you have a way to quickly reach all staff if there is a workplace COVID-19 exposure.

8. Ensure that employees wear facial coverings in the workplace when within six feet of someone else and when required by Broward EO 20-07, as amended. Social distancing of six feet should be practiced to the maximum extent possible, even when facial coverings are worn.

9. Require customers, clients, and other visitors to the business to wear facial coverings in accordance with Broward County EO 20-07, as amended.

10. Limit the number of employees simultaneously using employee common areas.

11. Implement regular, more intensive cleaning, particularly in heavily trafficked areas such as bathrooms, kitchens, escalators, elevators, and other common areas.

ATTACHMENT 2
RESTAURANTS AND FOOD ESTABLISHMENTS

All tables and chairs, whether indoor or outdoor, shall be at least six feet apart between parties (at their closest point); bar counters shall remain closed to seating. Patrons are prohibited from congregating at the bar counters or elsewhere. Parties shall be limited to no more than ten (10) persons. Drive-through, curbside take out, or delivery service may continue in accordance with CDC Guidelines and all applicable Broward County Emergency Orders. Social distancing requirements do not apply to members of the same household.

A. Operations Requirements.

1. Establishments shall comply with the following capacity limitations: indoor seating areas must not exceed fifty percent (50%) of the maximum indoor seating capacity of the establishment (or the maximum capacity permitted by the applicable Executive Order of the Governor, if less); total indoor and outdoor seating (defined as areas with exclusively open-air customer seating) combined occupancy shall not exceed existing total maximum occupancy (100%) for the establishment.

2. Ensure adequate supplies to support healthy hygiene practices for both employees and customers, including soap, hand sanitizer with at least 60 percent alcohol, and tissues, and make hand sanitizer readily available to guests. Signs on how to stop the spread of COVID-19, including signs on properly washing hands, everyday protective measures, facial coverings, and social distancing should be conspicuously posted.

3. To the extent possible, restaurants and food establishments shall provide single use disposable one-time menus, utilize chalkboard menus, digital menus that are sanitized after each use, other digital menu options available on a personal device, or other means to avoid customers sharing such items.

4. Whenever possible, use disposable (and when possible, biodegradable) food service items (utensils, dishes, etc.) and single serving seasonings and condiments to avoid customers sharing such items. If disposable items are not feasible, ensure that all non-disposable food service items are handled with gloves and are washed in between each customer usage with dish soap and hot water or in a dishwasher. Establishments must use packets or pre-rolled bags or wraps of utensils and eliminate table presets. Avoid using food and beverage implements brought in by customers.

5. Use touchless payment options whenever available. Ask customers and employees to exchange cash or card payments by placing on a receipt tray or on the counter rather than hand to hand. Sanitize any pens, counters, or hard surfaces between each use.
6. Ensure that ventilation systems operate properly to provide adequate air circulation in all parts of the facility and increase circulation of outdoor air as much as possible by opening windows and doors, using fans, or other methods.

7. Provide physical guides, such as tape on floors or sidewalks, to ensure that customers remain at least six feet apart when in lines. Ask customers to wait in their cars or away from the establishment while waiting for a table or to pick up food. If possible, alert patrons on their cellphone that their table or food is ready to avoid use of restaurant provided “buzzers.” Post signs to inform customers of food pickup protocols.

8. Use placards or other easily visible means to identify tables closed due to social distancing and to identify tables that have been sanitized and are ready for the next use.

9. Restrict the number of employees in shared spaces, including kitchens, break rooms, and offices to maintain at least a six-foot distance between people if possible; when a six-foot distance cannot be maintained, employees must wear facial coverings. Where possible, stagger workstations instead of having employees standing opposite one another. If there is a break room, limit the number of employees simultaneously allowed inside.

10. Wherever possible, install physical barriers, such as sneeze guards and partitions, at cash registers, check-in stations, food pickup areas, and other areas where consistently maintaining physical distance of six feet is difficult.

11. Ensure that all suppliers and third-party delivery staff are aware of social distancing requirements.

12. Child or adult gaming and play spaces located in dining establishments shall remain closed.

13. Consider options for a reservations-only model or to have dine-in customers order ahead of time to limit the amount of time spent in the establishment.

14. Buffets and salad bars are to remain closed. Self-service drink stations must provide single use tissues or wipes to use the equipment, and the stations must be washed and sanitized frequently. Remove cut fruit, unwrapped utensils, and unwrapped straws from drink stations.

B. Sanitation and Safety Requirements.

1. Employers must enforce hand washing and use of facial coverings by employees in accordance with Broward County EO 20-07, as amended. This includes the requirement that all staff who have direct customer contact must wear facial coverings.
when in direct contact with customers. All employees handling food must wear facial coverings consistent with Broward County EO 20-08. Food preparers are also required to wear gloves while handling food.

2. Clean and disinfect frequently touched surfaces (for example, door handles, workstations, cash registers), and frequently shared objects (for example, payment terminals, tables, countertops/bars, receipt trays, pens, condiment holders, and any reused menus) between each use. Tables and other dining areas must be sanitized after each use. Host stations must be sanitized at least hourly. Use products that meet EPA’s criteria for use against COVID-19 and that are appropriate for the surface.
